JUAN VILJOEN

FULL STACK WEB DEVELOPER

ABOUT

I am a creative with a passion for crafting exquisite products and a deep interest in designing visually appealing webpages and apps. While my background is in fine jewellery design, I am now seeking a new career in web development. I am eager to gain hands-on experience and expand my knowledge and skills in this exciting field.

EXPERIENCE

PROJECTS

- **Inventory management app -** Full stack MERN app where end users can create an account and add products and where an admin user can add, edit and delete products +JWT authentication.
- **Various API Management apps**
- **TODO app** built with MERN where users can create a profile and add, edit and delete items from a todo list.
- **Personal portfolio** bootstrapped with React to showcase my projects and an introduction of myself.
- **e-Commerce shopping cart** bootstrapped with vanilla JS
